

2nd GEN QUAD E1/T1 PRI CARD (PCI/PCIe)

Overview

We guarantee that our card, working directly with DAHDI (no patch required), delivers the same sound quality and performance as the Digium™ and Sangoma™ cards while costing considerably less. PRI cards today became a commodity since all manufacturers use FPGAs and the same Octasic™ DSP for their Echo Cancellation. Not only our cards perform at par with the larger manufacturers but they also offer the Innovative and Unique PCI/PCIe Rotation System. Available in 4 port, use this card with any of the major open source platforms.

Features

- SS7 Signaling supported
- PCI and PCIe interface on the same card. Fully PCI 2.2/PCIe (X1) compliant
- Four T1/E1/J1 ports with PCI-Express interface for high performance voice applications
- Optimized per channel DMA streams and hardware-level HDLC handling unload the host CPU
- Optional Octasic™ DSP Echo Cancellation Module 128ms tail/channel (on all channel densities)
- PRI Switch Compatibility: EuroISDN, Network or CPE, AT&T 4ESS, CAS Voice Modes
- Interoperable with Asterisk™, Freeswitch™, YATE™, Elastix™, Trixbox™, FreePBX™ ...

Product Models

2aCP4 - 2nd GEN 4 PORT PRI PCI card
 2aCP4e - 2nd GEN 4 PORT PRI PCIe Card
 2aCP4eL - 2nd GEN 4 PORT PRI PCIe Card + LEC
 2aCP4L - 2nd GEN 4 PORT PRI PCI card+LEC

Operation temperature: 0°C to 50°C
 Storage temperature: -40°C to 125°C
 Dimension: 15.5cm X 9.5cm X 1.5cm
 Weight: 154 grms

Warranty Info

5 Years Hardware warranty,
 backed by 3 month money back guarantee.
